Art Unit: 1621

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-21 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over EP 657,409.

The prior art discloses a catalyst "based on chromium oxide" which is produced in a manner that would preclude the presence of an ammonium salt (See Abstract). Furthermore, the prior art discloses reacting various halogenated hydrocarbons with HF. It would have been obvious to one of ordinary skill in the art that the actual physical characteristics of the catalyst would not be changed by depleting an ammonium salt as opposed to producing a catalyst having no ammonium salt.
